

Young Investigator Training Program SENC-YITP

SENC organizes short research stays (2-4 weeks) for graduate students and young post-doctoral researchers from Latin America, Asia and Eastern Europe linked to its biannual meeting. SENC-YITP provides young researchers with opportunities to connect with colleagues working in leading Spanish Neuroscience labs and promote future collaborations, job opportunities.

The program offers stipends to help covering expenses. Eligible applicants are PhD student or young postdoctoral fellow (age limit: 35 at the time of registration).

Cajal Winter Conferencés

The Cajal Winter Conference (CWC) brings together specialists in a Neuroscience area to present their recent data and discuss on common interests in an open, informal atmosphere. We select inspiring environments favoring scientific interactions between young graduate students and postdocs with leading researchers. Exciting talks, presentations and parallel scientific events during afternoons and evenings are combined with recreational activities in the mornings. SENC and IBRO fellowships are typically awarded

Stay tuned for CWC 2016!

Biannual Meeting of the Spanish Society of Neuroscience (SENC)

The biannual meetings of SENC are the premier venue for neuroscientists from Spain and abroad to present emerging science, learn from experts, forge collaborations and advance careers. Join your colleagues at the place of ideas for Neuroscience.

The next meeting will be held in **September 2015 in Granada.**

Check our website for calls

SENC Member Benefits

As member SENC, you enjoy a wealth of resources to help your career and the field of neuroscience. **Join or renew now to start enjoying these member benefits.**

Opportunities for the SENC meeting:

- Presenting your work
- Submitting proposals for symposia
- Reduced registration rates
- Advanced hotel reservations

Professional development and networking opportunities:

- Professional Development Program
- Automatic membership in IBRO and FENS
- Access to enhanced member directory

Members enjoy access to:

- SENC monthly electronic newsletter
- Free online access to European Journal of Neuroscience, published bimonthly by FENS

Members can advance the field by:

- Educating the public about neuroscience with the help of SENC and FENS outreach grants
- Serving on SENC committees
- Voting in SENC elections
- Sponsoring new member applications
- Eligibility for SENC-sponsored prizes and awards

The Spanish Society of Neuroscience (SENC) brings together scientists working in the field of neuroscience in Spain

Our Mission

To foster collaborations among neuroscientists from diverse backgrounds, to better understand the brain at all levels of biological organization, and to encourage translational research

To support career development by organizing professional development activities, and providing useful educational resources

To promote public information and education about neuroscience research

To inform policymakers about neuroscience research and its implications for societal benefit, and
